

May 4, 2017

Dear PACLAB Customer,

I am writing to update you about the LabCorp and Pathology Associates Medical Laboratories transaction. LabCorp has completed the purchase of PAML and PAML's interest in select joint ventures, including PACLAB. PACLAB is a joint venture between PAML; EvergreenHealth Medical Center; Overlake Hospital Medical Center; Valley Medical Center; Providence Centralia Hospital; Providence St. Peter Hospital; Providence Regional Medical Center Everett; and the CHI Franciscan Health System.

LabCorp's purchase of PAML is the first step in completing the PACLAB transaction. The hospital partners in PACLAB have also agreed to sell their interests to LabCorp, and once complete, PACLAB will be wholly owned by LabCorp. We will provide updates as the PACLAB transaction progresses. Until the PACLAB transaction is complete, there will be no significant changes to operations or services. Patient Service Centers, Couriers, Client Services, Testing and other customer-focused services will operate normally.

For twenty years, PACLAB has provided community based laboratory services to Western Washington, creating the only statewide laboratory system in Washington. We are proud of PACLAB's long history of providing outstanding service, and we are committed to doing the same during this transition. Customers and patients remain our highest priority. We will work with PAML and LabCorp to ensure continuity of services and maintain the level of quality our customers have come to expect.

Your service representative can provide you with more information and help to answer your questions. Over the coming weeks, we will provide you with more information to help you prepare for the transition, and about the additional capabilities of LabCorp, including access to clinical trials and research through LabCorp's Covance Drug Development business, enhanced IT and data analytics, standardized testing platforms and broad patient access. Throughout this process, we are committed to providing updates and encourage you to reach out to us with any questions or concerns.

Sincerely,

Kathy Teitzel
PACLAB General Manager
